

# GhostOS Commercial Licensing Agreement

This agreement certifies that any commercial, institutional, or enterprise use of the GhostOS AI Suite (including but not limited to GhostGPT, GhostPuntr, Jarvis Lite, GhostGrid, and GhostForge) is subject to a paid licensing agreement.

Ownership of all associated source code, designs, architecture, workflows, trademarks, and documentation remains with the original creator:

Luke Jarvis

Independent Systems Architect

Email: [ghostops.contact@protonmail.com](mailto:ghostops.contact@protonmail.com)

Commercial use cases requiring a license include but are not limited to:

- Integration with AI assistant products or platforms
- Use in internal or external corporate tooling
- Derivative products based on GhostOS architecture
- Research or product development by funded organizations

Licenses are granted on a per-entity or per-project basis. Custom terms, pricing, and source access are available upon request.

Unauthorized use, replication, or obfuscation of these systems for commercial purposes may result in legal action.

To inquire about licensing GhostOS, contact: [ghostops.contact@protonmail.com](mailto:ghostops.contact@protonmail.com)
